# MASKING AT EVENTS IN 2023: notes on policies & strategies from the brooklyn art book fair

Hi! We're the organizing team of the 2023 Brooklyn Art Book Fair, which was a fully-masked event spanning three days with over 3,000 visitors.

Since we experienced a high compliance rate with our mask policy, some individuals and organizations reached out with questions on how we made it happen. We thought we'd compile a bit about our goals, policies, and strategies to make a Covid-safer event! We hope this doc might help other organizations who'd like to implement similar requirements.

NOTE: None of us have formal event accessibility training, and this resource is not intended to be taken as an official guide on accessibility policy. There is ample room for improvement and critique. Our main hope is to provide a jumping-off point for others!
